

Gaming Laboratories International Adds Four Members To U.S. Development Staff

LAS VEGAS (January 23, 2012) – Gaming Laboratories International, the world’s leading technical consulting and independent certification laboratory, has added four more staff members to its professional development team.

Joining the GLI team are Melissa Aarskaug, Jason Krause, Teri LeBaron and Lauren Roberts-York, each of whom bring a level of expertise and personal service that will serve GLI’s regulatory and supplier clients extremely well.

“Gaming is evolving rapidly as new technologies advance and jurisdictions are accepting more modern and efficient means of delivering gaming content. That evolution and increasing demand for GLI’s services and expertise led us to expand our staff to accommodate demand,” GLI General Counsel and Senior Director of Government Relations and Development Kevin Mullally said. “Our focus was to find energetic, accomplished professionals with technical backgrounds, and we have found those attributes in Melissa, Jason, Teri and Lauren.”

Melissa Aarskaug has a combined background of engineering and customer service experience. Jason Krause and Teri LeBaron come to GLI most recently from Bally Technologies, where they worked in product management and development. Lauren Roberts-York was promoted to the position from her previous customer service position at GLI. All four team members will be based in GLI’s Las Vegas laboratory location.

For more than 20 years, Gaming Laboratories International, LLC has been the world leader in providing independent testing, inspection and certification services to the gaming, wagering and lottery industry. GLI also offers independent network and information security assessments to its regulatory, lottery and supplier clients. With 20 laboratory locations located across Africa, Asia, Australia, the Caribbean, Europe, North America and South America, GLI is the only global organization of its kind to hold U.S. and international accreditations for compliance with ISO/IEC 17025, 17020 and guide 65 standards for technical competence in the gaming, wagering and lottery industries.
